---

## SUMMARY

---

Darren is a results-driven, full-stack developer with a passion for building dynamic and innovative web applications. He graduated from the University of Guelph with a bachelor's degree in computer science and a solid foundation in both front-end and server-side development.

## PORTFOLIO

---

### [TFT Little Legends Tracker](#) | Personal Project

- ❖ Created a web application centered around statistics on "Little Legend" pick rates in a game called Teamfight Tactics. This application offers a fun way for players to explore dynamic trends in 'Little Legend' popularity.
- ❖ Utilized: React.js, .Net 6, C#, HTML, CSS, Javascript, Bootstrap, MUI, SQLite, Docker.

### [Chatbot AI](#) | Personal Project

- ❖ Developed an intelligent chatbot on the browser using an artificial intelligence API. Users interact with the chatbot by sending messages and receiving AI-generated responses.
- ❖ Utilized: React.js, .Net 7, C#, HTML, CSS, Javascript, Bootstrap, Docker.

### [Bionic Text Converter](#) | Personal Project

- ❖ Developed a user-friendly tool that extracts text from PDF, TXT, and DOCX files and converts it into Bionic Reading mode, a new method of reading used to improve reading speed.
- ❖ Utilized: React.js, Bootstrap.
