PROJECTS

[TFT Little Legends Tracker](#) | Personal Project

- A web application dedicated to providing players with real-time statistics on "Little Legend" pick rates in the popular game Teamfight Tactics. Offers an engaging and entertaining way for players to explore dynamic trends in 'Little Legend' popularity.

[AI Web App](#) | Personal Project

- Demonstrates the potential of AI in web applications by developing an intelligent chatbot on the browser. Users interact with the chatbot by sending messages and receive AI-generated responses.

[Bionic Text Converter](#) | Personal Project

- The Bionic Text Converter is a user-friendly tool that extracts text from PDF, TXT, and DOCX files and converts it into a new file containing the converted text.

EDUCATION

University of Guelph - Bachelor of Computing

Major in Computer Science

Minor in Business Economics
