Languages: JavaScript | C | C# | SQL | Java | Python

Development: HTML | CSS | React.js | ASP.Net | Node.js | BootStrap | Material-UI

Database: MySQL | MongoDB | SQLite

Familiar With: REST API | MERN Stack | Azure

PROJECTS

TFT Little Legends Tracker | **Personal Project**
- Created a web application centered around statistics on "Little Legend" pick rates in a game called Teamfight Tactics. This application offers a fun way for players to explore dynamic trends in 'Little Legend' popularity.

AI Web App | **Personal Project**
- Developed an intelligent chatbot on the browser using artificial intelligence API. Users interact with the chatbot by sending messages and receiving AI-generated responses.

Bionic Text Converter | **Personal Project**
- The Bionic Text Converter is a user-friendly tool that extracts text from PDF, TXT, and DOCX files and converts it into Bionic Reading mode.

EDUCATION

University of Guelph - Bachelor of Computing

Major in Computer Science

Minor in Business Economics
